

CONFIDENTIAL

Chief, West Coast Bureau

14 January 1949

Chief, FBIB

[redacted] Engineering Aide, SP-8.

25X1

1. During the week of January 17 to 21, 1948 the subject individual will arrive at Reseda for about a week of training and orientation. He is enroute to our Okinawa Bureau.

2. [redacted] has only a provisional clearance and you should be guided accordingly.

25X1

3. [redacted] has undergone training in the maintenance and repair of the Ductaphone belt type equipment and has attained a good degree of skill in this work. It is suggested that he compare notes with [redacted] of your staff for their mutual benefit with respect to the maintenance of this equipment.

25X1

25X1

4. It is further suggested that [redacted] be afforded an opportunity to study all features of the technical setup of the Reseda station to gain first hand knowledge of how that station's equipment is arranged and wired with respect to operational and technical requirements of our monitoring operation.
